#### CEASE AND DESIST ORDER

William Perron 319 Hartford Pike Dayville, CT 06241-1427 July 2, 2020

Re: Violation of the Town of Brooklyn Inland Wetlands and Watercourses Regulations at Woodward Road (Map 18 Lot 28) Brooklyn, CT.

Mr. Perron:

You are hereby required to CEASE AND DESIST from all site work affecting the wetlands and/or or watercourses at your property at Woodward Road (Assessors Map 18/ Lot 28). On 7/1/2020, Inland Wetlands and Watercourses Commission (IWWC) Chairman, Jeff Arends and I inspected the subject property in response to complaints received. We observed and took photographs showing that excavation of gravel has been ongoing within approximately twenty feet of Blackwell's Brook. The gravel has been spread in the 175-foot Upland Review Area. No erosion/sediment controls were in place. No permit for this work in the 175-foot has been issued by the Brooklyn Inland Wetlands and Watercourses Commission (IWWC).

The gravel excavation in the 175-foot Upland Review Area without a permit from the IWWC is a violation of the Town of Brooklyn Inland Wetlands and Watercourses Regulations.

Please refer to the attached copy of the CT Wetlands Statutes, Section 22a - 44(b) which enables municipalities to assess civil penalties for violations.

Please refer to the attached copy of Section 6 of the Town of Brooklyn IWWC Regulations, which states that any person violating provisions of these regulations shall be subject to enforcement proceedings and penalties.

The IWWC may require that you install erosion/sediment controls and that you stabilize all the disturbed areas in the Upland Review Area using loam, seed, and mulch.

You are hereby required to call in to the IWWC Webex meeting at 6:00 p.m. on Tuesday, July 14 at 6:00 p.m. At that meeting, a hearing will take place to provide you the opportunity to be heard and show cause why the Cease and Desist Order should not remain in effect. **Examples:** Jurisdictional ruling allowing construction of a parking lot in an upland where the municipality does not have an established upland review area must use code 14, other possible codes are 2 and 10. Permitted construction of a free standing garage (residential improvement by homeowner) partially in an established upland review area with the remainder in the upland must use code 12 and 14, other possible codes are 1 and 2.

- 11. Leave blank for TEMPORARY alterations but please indicate action/project/activity is temporary under question #8 on the form. For PERMANENT alterations, enter in acres the area of wetland soils or watercourses altered. For those activities that involve directly altering a linear reach of a brook, river, lakeshore or similar linear watercourse, enter the total linear feet altered under "stream". Remember that these figures represent only the acreage altered not the total acreage of wetlands or watercourses on the site. You MUST provide all information in ACRES (or linear feet as indicated) including those areas less than one acre. To convert from square feet to acres, divide square feet by the number 43,560. # NOTICE OF INCOMPLETE APPLICATION

Re: Woodward Road, Map 18 Lot 28 Brooklyn, CT 06234

William Perron 319 Hartford Pike Dayville, CT 06241-1427

July 16, 2020

Mr. Perron:

You are hereby notified that the application you submitted to the Brooklyn Inland Wetlands Commission is incomplete. Unless you submit the complete fee and more information, it is very likely that the Commission will deny your application.

#### Fees:

You must submit a check made out to the Town of Brooklyn for the State of CT fee of \$150.00.

## Additional Information Needed:

Chairman Jeffrey Arends told you at the site walk on your property that you needed to submit a plan showing proposed work and the wetlands delineation.

Please submit a plan showing the proposed work in relation to the delineated wetlands. You have stated that you found a wetlands delineation plan, but no plan was submitted with your application. You can have a copy of the plan made at a store (like Staples) and then draw on it the work you are now proposing to do. We need to know how big the area is where you want to do site work, and we need for you to show us where that work is proposed. You can also draw a sketch of the proposed work on a separate piece of paper and submit that.

Please submit a written description of the work you are proposing to do. The Commission needs this in writing in order to approve your permit. For example, describe the way you want to lower

the Bank of Blackwell's Brook. Tell us how steep the slope will be, how wide the access path/driveway would be, and how you will stabilize the exposed soils. What is the closest point of work to the edge of the Brook? If you ware working in the area delineated as wetlands, how many square feet will you alter?

Describe how you want to remediate the gravel mine you already constructed within about 20 feet of Blackwell's Brook. Do you want to make the slopes less steep, add loam to the area, seed it and mulch it? If so, please put that in writing. If you no longer intend to mine gravel there, please put that in writing, too.

If you intend to cut fill out of the bank to remediate the gravel mine, ask your machine operator to tell you how many cubic yards of material that would be and submit that in writing.

Please fill out the CT DEEP reporting form. Instructions are attached.

Sincerely,

Margaret Washburn
Margaret Washburn
