#### **F. South Brooklyn Solar Project.**

L. Brodeur stated that S. Brodeur had spoken with Ranger Solar regarding putting in Pollinator Gardens in between the panels. The company that will be operating the farm who also operates them in Vermont is receptive to the idea because it doesn't cost them any more to seed it. It will benefit the bees and it will look nice. S. Brodeur will keep pushing it.

There was more discussion regarding Barberry and other invasives.

There was discussion as to whether more signs are needed. The four signs are in good shape, but a place could be found for another one. There was discussion regarding putting up permanent signs.

S. Karro suggested promoting/advertising, seasonally, the Brooklyn farmers (e.g. vegetables, Christmas trees) to make people aware of what is in their backyard. Members liked the idea and L. Brodeur stated that it should be given some thought and that it could be discussed next month.

S. Karro stated that 10,000 Christmas trees and 100 apple trees were planted and there is enthusiasm.
