DOES YOUR HOME NEED REPAIR?

Funding is available through the Hampton Regional Housing Rehabilitation Program!

This funding is available for only a very limited time, so act quickly if you are interested. Funded by the Community Development Block Grant from the Connecticut Department of Housing, the Program provides up to $35,000 in assistance to homeowners in Hampton, Brooklyn, Chaplin, Eastford, Scotland, and Pomfret to improve their properties.

WHAT TYPE OF WORK CAN BE DONE?

New roofs, heating systems, energy conservation, septic system repairs, new wells, and accessibility retrofits. The Program addresses health and building code items.

Homeowners receive a 0% interest loan for the cost of the work that is repaid only when the property is sold. You can qualify if your income is within the maximum amount shown to the right.

Make repairs now and protect your investment for the future.
