To Whom it May Concern,

I own the property at 181 Paradise Dr Brooklyn. When I bought the property, you could not see the house from the road or anything there. Unfortunately, the previous owner had passed away there. Everything was let go and grossly overgrown.

Looking at pictures when it was the best you had trees, no growth and grass down to the water. I removed sheds filled with garbage and there was even a metal shed in the water that I removed.

I started clearing slowly to make sense of the property and wanted to restore it to its glory days. Trees had fallen from a storm and some I had to remove because they were a danger. With a lot of rain you could not walk behind the house because it would wash out and was just mud.

I cleared that area and brought in fill to keep everything from washing out and make it so you could walk and not sink.

As per your request the wetlands have been flagged. I have no plans of taking anything down or filling anything in. I am just looking to remove the downed trees and keep the area clean.

I currently have the property for sale and life is taking me to other places. I would like to get this resolved so the new owner is not buying into any issues.

Shane O'Connor
