6/10/21

Address

Date

I met David Jarvis. He said his big pine trees have had branches snapping off. He hired Jeff Page to cut 4 pines. A pine fell on his pool. They want to make a picnic area.

David is using a small tractor to push organic matter + debris into piles. He wants to make the area easier to walk through without tripping over branches. He cut up trees that fell + were leaning over the pool. Moving debris will finish this work. David agrees to draw a plan to show the work he has done, submit a plan by email or drop it off, and attend the July 13 meeting of the wetlands commission at 6:00 p.m.
