# HINDING PROPOSAL

## OPTION ONE

---

**PROCEDURE TO BE AS FOLLOWS:**

Furnish all materials, labor and insurance to perform the **HINDING TENNIS COURT REPAIRS** to (2) 121 x 97 Basketball Courts. Colors to be Beige inbounds and Maroon out of bounds.

**Specifications of Services to be Provided:**

- 1. MOBILIZATION -** Mobilize the necessary equipment to perform the required work for your project as itemized below. This fee is associated with the work that is necessary to set up your job and organize the necessary equipment that is needed to load and mobilize to and from the job site each day.
- 2. FUEL SURCHARGE-** 1.5% fuel surcharge.
- 3. SURFACE CLEANING-** Using a "High Powered" Cleaning apparatus, Hinding Tennis will thoroughly clean your existing surface free of all algae, mold, dirt and any other foreign materials on your court. We use a Soft Wash solution to "Pre-Soak" your court and loosen and kill the vegetation on your court. Once that is completed, we thoroughly rinse and wash your court using a high pressure hot water system. There will be certain times where the surface cleaner will remove loose and deteriorated paint. We cannot determine at the time of inspection where and when this will happen, however if the material is loose under the coatings, you will want it removed for safety reasons. We can provide a separate quote to repair the affected areas after completion of the cleaning if this arises. We are not responsible for any plant material or vegetation around the court. However, we will "Pre-Soak" any and all plant material that you want protected from the area. It will be soaked with a treatment that will help protect the area. This is not your typical so-called "power washing" and if you are painting your court and decide to do it yourself or outsource it, we cannot guarantee the coatings.
- 4. ACRYLIC COLOR COATING -** Furnish and install the (3) coat acrylic color coating surface system to entire area. Color to be beige inbounds and maroon out of bounds. The Hinding surfacing system consists of one resurfacer coat, one coat of color and one finish coat.
- 5. LINE STRIPING -** Layout and stripe all lines per NCAA. Apply one coat of acrylic Line primer. Once Line primer has cured apply One (1) coat of textured White Line Paint. This (2) two coat application provides sharp lines and greater durability and longevity. The line paint is textured.

Pricing as indicated below:

**Total Cost: \$27,000.00**

# RESURFACING

## Court Resurfacing

Since 1994, Hinding Tennis has been building and resurfacing tennis courts throughout the United States and in the Caribbean. With headquarters located in West Haven, Connecticut, Hinding Tennis' major client concentration runs up and down the U.S. East Coast.

Resurfacing your tennis court is important in the overall maintenance, upkeep, playability and longevity of the court. Typically, a tennis court should be resurfaced every 4-7 years. This varies depending upon the surface, weather, amount of play, and preservation of the court. Hinding Tennis offers all types of coating and cushion systems and will give you several resurfacing options to keep your court performing at its highest level of playability.

Hinding Tennis resurfaces over 400 courts per year. We retain 90% of our professional workforce yearly, therefore we are not training new court technicians each season. Our quality of workmanship, professionalism and customer service is second to none. Examples of our projects include Chelsea Piers, Stamford CT; U.S. Coast Guard, New London CT; and Match Point Tennis, Brooklyn, NY.
