

To whom it may concern,

My father Arthur Parent ran Parent Sanitation from 1965 till about 2013. During the late 60's into the 70's my father would bring material we dug out from sites we were installing septic systems and transport it to the RT 205 site where Fred Jolley ran a plant to process the material. My father also would get the processed material from Fred Jolley's site to use when filling in the sites we were putting in the septic systems. I worked along side my father from the 1970's until I sold the business in 2022, and I remember my father telling me where he got the material he used and brought to Fred, back in the day.

Sincerely

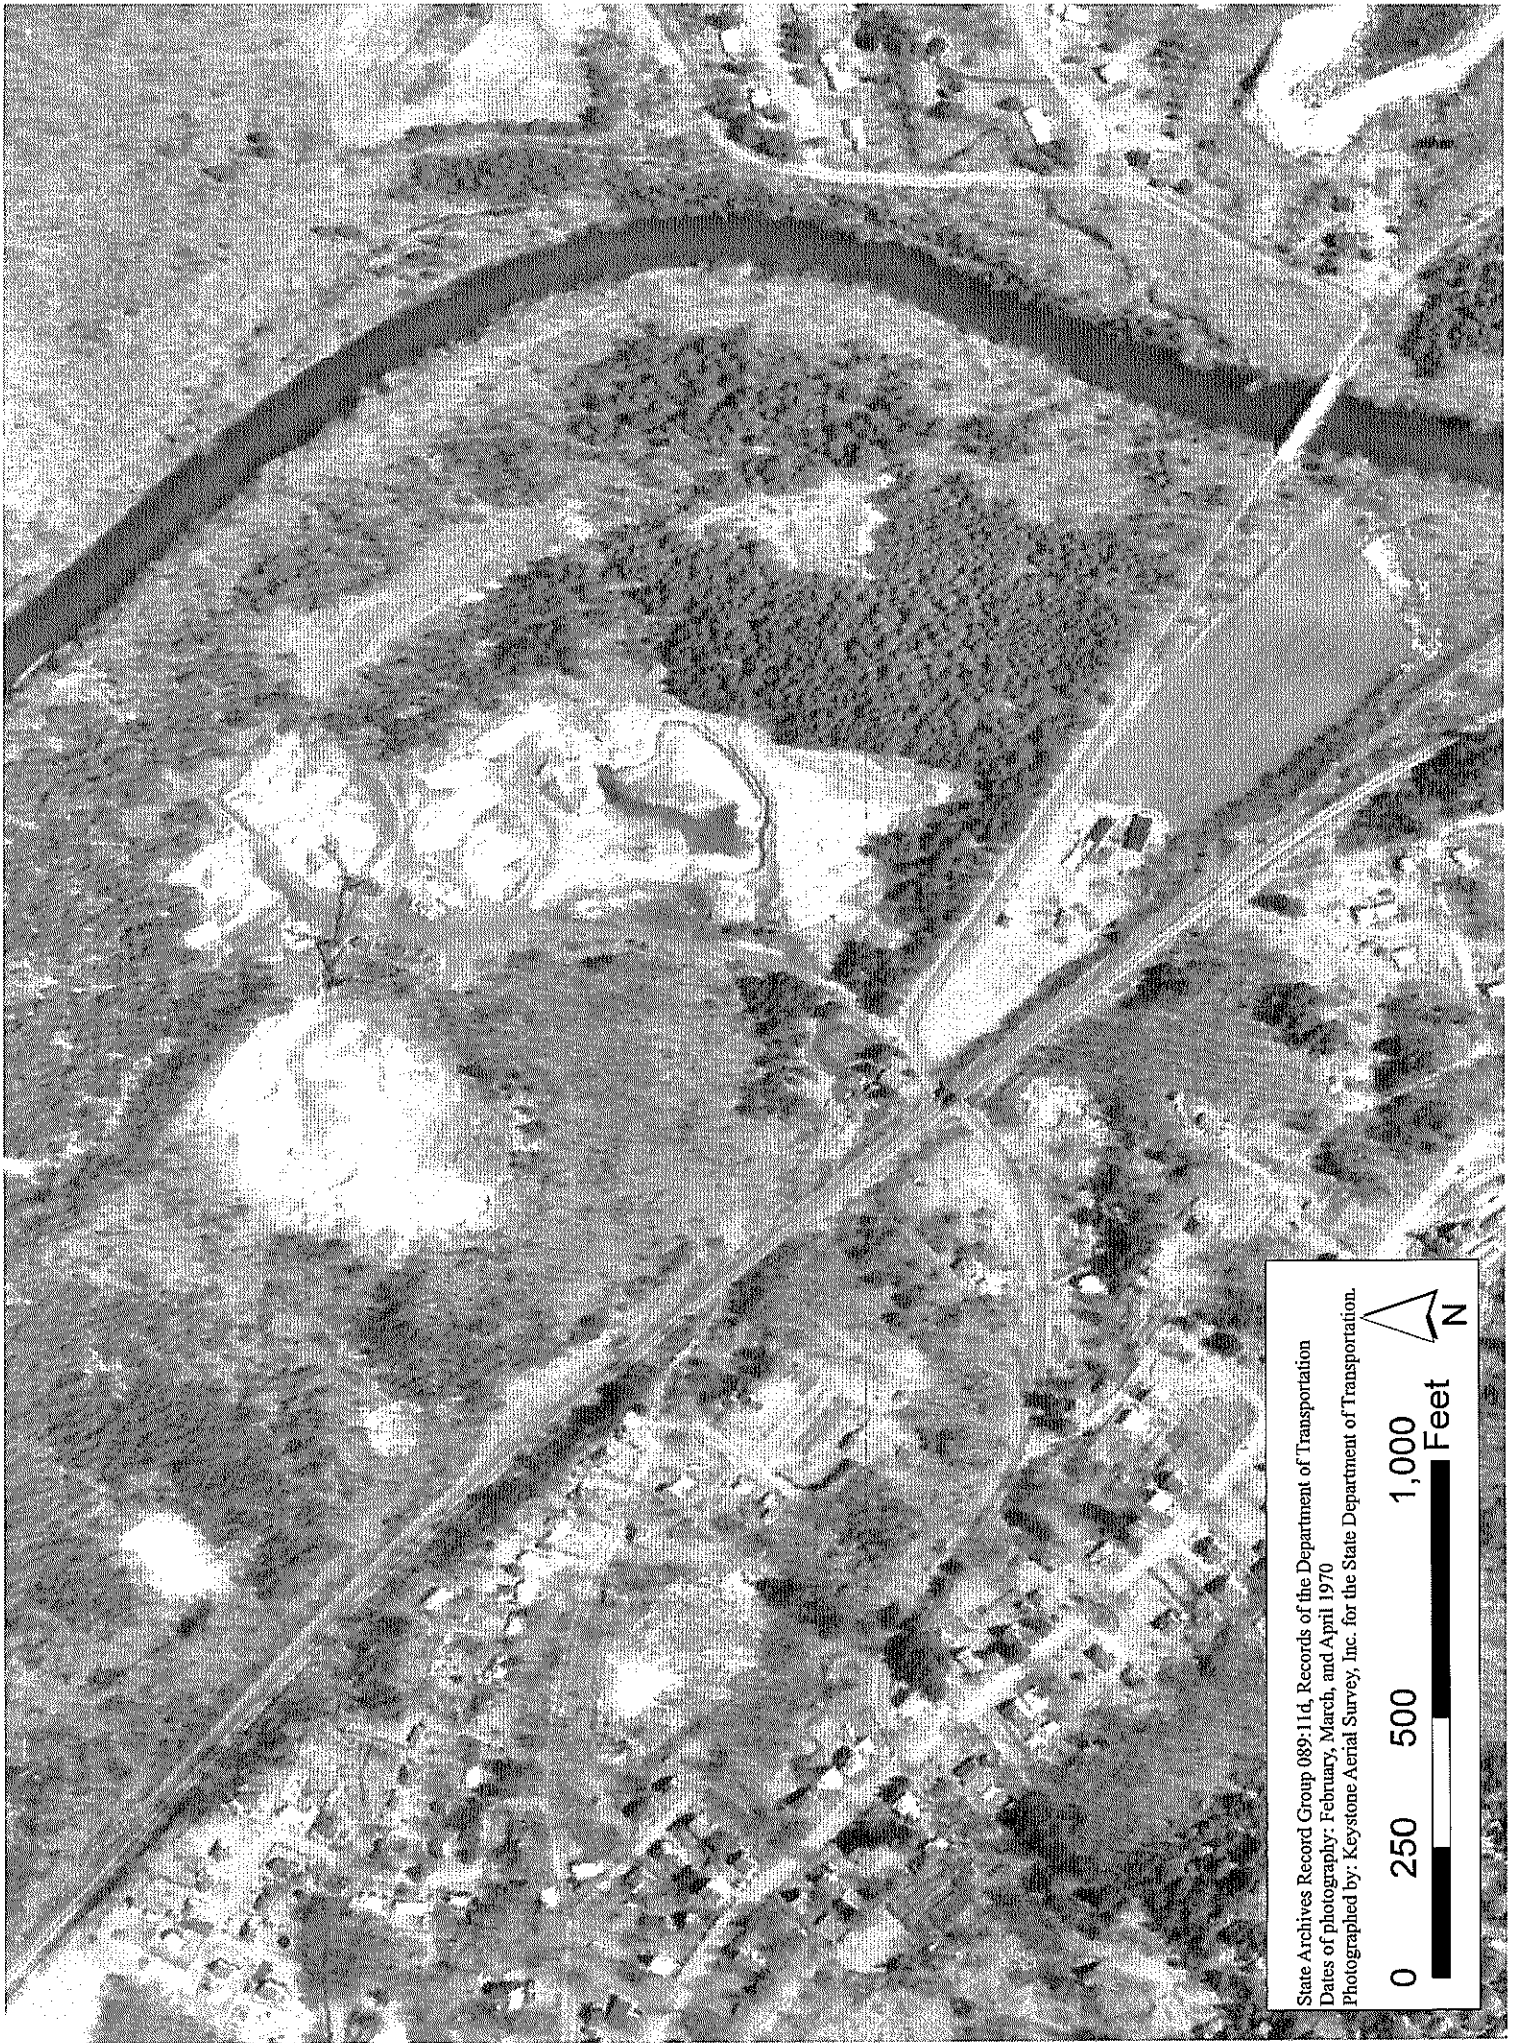

Glenn Parent 4/24/23
