## Meeting 1/3/2023

1. Total of 630 calls for 2022.
2. Thank you all for a successful year and allowing me to be your leader. I put in for this position because there were 2 members and former students of mine that asked me too. I agreed to do it for one reason. Because I cared about their passion for this department and I cared about them. As this year has gone by there have been many changes and deviations. I took my 36 years of experience as a Firefighter, Officer, and Fire Chief and made changes and adjustments based on knowing what works and what doesn't. In this position you have to make some hard decisions and have some very hard conversations. Not every decision is popular. But every decision has to be in the departments best interest. Being a good Fire Chief requires you to be a good listener, mentor, councilor, friend, and most of all being honest. However, this position here in East Brooklyn came with a lot more work than an average Chiefs position within a small district. Protecting the integrity of this department and all the work that the men and women have done over the many years will not be forgotten. This department has a rich history. Let's keep it alive. In 2023 we need to stick together and be respectful to each other. We all need to be a little more understanding of each other. We have had to face some tough times. Let's focus on why we are all here. Public service is our #1 priority. Let's focus on our training and being the best Engine Company in the North East. Whether you believe it or not we have an extreme amount of support outside of these walls. If we keep to our core values, we will continue to grow stronger. The changes here have been noticed in more areas than you could ever imagine. Combining resources, manpower, and equipment with Mortlake was the best thing we could have ever done for our tax payers in this town. The comradery and watching crews working together as one, is extremely rewarding for Chief Breen and myself. You should be proud. You are all a part of this department's history with this incredible progression. Thank you all again for your hard work. Better days are coming for this department!!

Brian M. Pepin-Fire Chief
