

Day Street Update – April 11, 2024

- Monitors have been installed to detect road movement.
- Notifications have been sent out for endangered species, history preservation, and tribal for verification.
- We are expecting an engineer's report soon to establish the safety of the remaining lane.
- We are researching various funding sources to cover cost of project.
- An RFQ is being sent out to seek design and construction.
- We have been in contact with DEEP, DOT, Army Corp, NECCOG, and other supporting agencies.
